The symposium »Post Carbon  
Material Practices« probes  
and charts the contemporary  
frontiers of material practices  
in the age of climate crisis  
putting the responsibility for  
our future back into our own  
court.

## Programme

**Roundtable ①: Embodied Material Actions**  
How can we engage and built on in a renewed  
understanding of the philosophy and culture  
of materials?

**Roundtable ②: Expanded Material Agency**  
How can we become active agents in initiating  
the shift towards a possible political, circular  
and reuse economy of the built environment?

**Roundtable ③: Affective Material Matters**  
How might a dialectic materialism revolutionize  
aesthetic and social values?

## Attendance

Hybrid Event online via Zoom and on-site  
at the Stuttgart State Academy  
of Art and Design, Am Weißenhof 1,  
70191 Stuttgart (GER)
